First Amendment to

Classification and Correlation  
of the Soils of  
Jasper County, Indiana

This amendment results from a memorandum from H. Raymond Sinclair, Jr. to Rodney F. Harner, dated October 22, 1985. It corrects some errors and an omission from the correlation.

<u>Page 3</u>	--	<u>Publication symbol</u> MeA		<u>Approved map unit name</u> Change to: Metamora fine sandy loam, moderately permeable, 0 to 1 percent slopes
 <u>Page 7a</u> -- Add page 7a (attached)				
<u>Page 9</u>	--	<u>Map symbol</u> MeA		<u>Soil name</u> Change to: Metamora fine sandy loam, moderately permeable, 0 to 1 percent slopes (where drained)
<u>Page 22</u>	--	<u>Simonin Series</u> Change waterland to waterlaid		
<u>Page 23</u>	--	<u>Sparta Series</u> First line should be changed to: "development and, from that standpoint this phase may be atypical" rather than "a typical."		
<u>Page 23</u>	--	<u>Warners Series</u> Last line, change "carbonic," to "carbonatic,"		

Approved: November 4, 1985

for  
RODNEY F. HARNER  
Head, Soils Staff  
Midwest NTC

Disposition of Original Atlas Field Sheets:

The original atlas sheets for Jasper County will be retained by the Indiana State Office and will be used in the map compilation and finishing procedures. Copies have been made for fire protection purposes. The state office at Indianapolis will prepare the atlas sheets for publication.

Prior Soil Survey Publications:

None

Instructions for Map Finishing:

The conventional and special symbols used in this survey are listed on the attached SCS-SOILS-37A. These are the only symbols that will be shown on the finished maps. The maps will be finished using the "Guide for Soil Map Finishing," 1976.
